Hi Kim – I am back at last. I am reviewing the EJ paper right now and hope to start looking at the relativity training this afternoon sometime.

I hope you had a good holiday season. Thanks for getting these tools together.
Helen

Some thoughts on the paper attached. As always, I'd say shorter would be better.

The briefing paper referred to in my comments is from last December – called "PO Briefing 12-27-12 draft final." As an aside, it looks like I was working on it and saved a version on 12-31-12 – exactly a year ago today almost to the hour. Who'd have thought we'd still be here...

Happy New Year to all! Let's resolve the Pend Oreille TMDL in 2014!

In response to Zokan's request, I pieced together the attached rough briefing summary for the EJ folks that will visit with the Kalispels (see email). Please review. Thanks

The Kalispel Tribe will be meeting with Matt Tejada and Lisa Garcia from the EJ Office in HQ. One of the things they want to discuss is the Temperature TMDL. Do you have a good summary/briefing info to share with them. Please send it to me so I can get it to Peter Murchie and Running Grass. I need to get this to them by next week.

Thanks
